

## BEACON HILL STORM DOOR POLICY

MAY 16, 2017

The Beacon Hill storm door policy is hereby amended to approve Higher Kick-Plates. The higher kick-plate will allow owners to have "self-storing" type screen doors. Thus, the kick-plate will be allowed to extend half way up the height of the door or any lesser size dimension. The doors are to be White. The thickness of the frame around the door is not to exceed 4". An Architectural Control Form must be submitted to the office for approval. The form must have a description and a sketch, photo or spec sheet of the door.

Doors are not to have any decorations on them.
